### What is an eBook?

eBooks are electronic versions of real books, which give students and teachers a new way of interacting with words on screen. They are incredibly easy to download and use in your classroom, ICT suite or library

Rising Stars is a respected and successful publisher of reading materials that support less able readers at Key Stage 3. Following successful trials in secondary schools we have converted 100 of our most popular reading books into an eBook Library.

Rising Stars eBook Library comes complete with a permanent site licence (so no annual subscription!), which means that for just £19 every student in your school can read an eBook as many times as they wish on any PC, whiteboard, laptop or PDA.

See overleaf for details on the titles included in the eBook Library and remember, when you buy the pack you will receive ALL the titles in printed book format FREE.
